

Vantree Technologies — New Hire Onboarding Guide

Document ID: HR-OB-03 | Version 2.1 | Last updated: January 2026 | Owner: People Operations

1. Before Day One

People Operations sends a welcome email approximately one week before the start date containing: a laptop shipping confirmation (for remote hires) or desk assignment (for office-based hires), an invitation to the Vantree Slack workspace, and a link to the benefits enrollment portal.

New hires should complete the I-9/right-to-work verification and direct deposit forms before day one wherever legally possible, to avoid delays in the first payroll cycle.

2. Day One Checklist

Task	Owner	Deadline
Laptop and account provisioning	IT	Day 1, 9:00 AM
Welcome session with People Ops	People Ops	Day 1, 10:00 AM
Meet your onboarding buddy	Assigned buddy	Day 1, 11:00 AM
Complete security training module	New hire	Day 1
Team intro / 1:1 with manager	Direct manager	Day 1, afternoon

3. IT Setup

IT provisions a laptop (MacBook Pro or ThinkPad, per role and preference), a Vantree email account, and access to core tools: Slack, Google Workspace, Jira, and the Vantree Workflow product itself for internal use ('dogfooding'). Role-specific tool access (e.g., AWS console, Salesforce) is requested by the manager via the #it-access-requests Slack channel.

All laptops ship with disk encryption and endpoint monitoring pre-installed as part of the IT Security Policy — see the IT Security Policy document, Section 2, for details on acceptable use.

4. Benefits Enrollment

New hires have 30 days from their start date to enroll in health, dental, and vision coverage through the benefits portal. Coverage is retroactive to day one regardless of enrollment date. Employees who do not enroll within 30 days must wait until the next open enrollment period in November, except in the case of a qualifying life event.

5. First 30/60/90 Days

Days 1–30: Focus on orientation. Complete all onboarding training modules, shadow team members, and set up 1:1s with key cross-functional partners identified by your manager.

Days 31–60: Take ownership of a small, well-scoped project or ticket. Begin contributing to team rituals (standups, sprint planning, retros) as a full participant rather than an observer.

Days 61–90: Complete your first 90-day check-in with your manager and People Operations. This conversation covers role clarity, early wins, and any support needed going forward. It is separate from the formal performance review cycle described in the Employee Handbook, Section 6.

6. Who to Contact

IT issues: it-support@vantree.example or [#it-support](#) on Slack. Payroll and benefits questions: peopleops@vantree.example. General onboarding questions: your assigned onboarding buddy, or [#new-hires](#) on Slack.
